English for Mining

A six-week virtual program designed for mining industry professionals and workers to learn technical English applied to the sector. Classes are taught by instructors from Queen's University, ranked among the world's top 10 in Mineral and Mining Engineering by the QS World University Rankings. Exclusive special price for employees of member companies.

Summer camps in Canada

A three-week experience during the mid-year school break (July/August) for students aged 13 to 17. The program combines hands-on learning and cultural immersion in iconic Canadian destinations, with two options depending on each student's profile and goals. Special price for members.

- **Language and cultural immersion:** improving English or French through learning experiences and cultural activities.
- **Academic preparation and leadership:** developing skills, leadership, and career guidance, aimed at students with an advanced level of English.

Executive English & Networking NEW

Practice English, expand your network and experience something different!

An innovative program that transforms professional English practice into a social, dynamic, and interactive experience, where learning and networking happen at the same time

Far from traditional classes, the program brings executives together in small groups in real-life settings, in after-work formats featuring fun activities, conversations and exercises designed to build fluency, confidence and spontaneity when communicating in English.

All with the support of specialists who guide, correct, and strengthen participants' communication skills, while they share experiences and expand their professional network.

※ Exclusive preferential rate for employees of member companies.
